

Kent and Medway emergency out of hours dental service

DentaLine provides emergency treatment for patients who develop severe dental problems when dental surgeries are closed.

At DentaLine, treatment is limited to pain relief and temporary dressings. Following your appointment with DentaLine, you should book an appointment with your own dentist to complete your treatment.

NHS charges apply, unless you are exempt. Proof of exemption must be shown at time of treatment. Payment must be made before seeing the dentist.

- Monday to Friday: 6pm - 11pm
- Saturday and Sunday: 8.30am - 1.30pm and 6 - 11pm

Daytime appointments

If you need to see a dentist urgently during the day, and your own dentist is not open, you should contact **the Kent Dental help line 0300 123 4412** or visit www.nhs.uk for details of practices who will be able to see you during the day.
